

Franklin City Schools'
Plans for Inclement Weather

Principals are to check their buildings for students, staff or problems. If roads are closed or driving emergencies exist; then, that will take precedence over these responsibilities.

Two-Hour Delay

Due to the possibility of hazardous road conditions, all Franklin City School buildings and offices will operate on a two-hour delayed schedule. Buses will run two hours later than the regular route time with schools and offices beginning two hours later than usual. ***If needed, essential staff may be asked to report at normal time. This communication will come from the building principal at the direction of Dr. Sander.***

Classes Canceled / Administrators and Staff Report

Due to hazardous road conditions, classes in the Franklin City Schools District are canceled for students and staff. Principals, administrators and central office exempted staff are requested to report to their workplaces when weather conditions permit.
